INTRO TO AI
(ARTIFICIAL INTELLIGENCE)

This course is your launchpad into the world of Artificial Intelligence (AI). Over six weeks, we'll learn about the world of AI, including the history of it and how it's evolved from sci-fi fantasy to real-world application.

You will learn the basic concepts and terminology and get ready to roll up your sleeves with hands-on exercises on how AI can be effectively used for writing, research and image generation. We will also cover the ethical considerations of AI and you will be tasked with completing a research assignment on the topic of AI.
